Cahill Dental Care in Inver Gove Heights Receives Program Accreditation

INVER GROVE HEIGHTS, MINN. – Cahill Dental Care in Inver Grove Heights recently received program accreditation from the American Academy of Dental Sleep Medicine (AADSM).

“The American Academy of Dental Sleep Medicine congratulates Cahill Dental Care on fulfilling the high standards required for receiving accreditation as a dental sleep medicine facility,” said Dr. Sheri Katz, AADSM president. “Cahill Dental Care is a significant resource to the local sleep medicine community and will provide the highest quality care for patients with sleep-related breathing disorders.”

To receive three-year accreditation, a dental sleep medicine facility must meet or exceed all standards for professional health care as designated by the AADSM. Those standards include the continuing education of staff; a developed set of policies and procedures for accepting, treating and billing patients; and adherence to approved standards for safety, customer service and patient follow-up.

Cahill Dental Care is directed by Patricia Braga, DDS, and is located at 6105 Cahill Avenue East.

The American Academy of Dental Sleep Medicine (ADSM) is a professional membership organization that provides educational resources for dentists and promotes the use of oral appliance therapy for the treatment of sleep-disordered breathing. An oral appliance that is custom-made and fit by a trained dentist is an effective treatment option for snoring and obstructive sleep apnea.

Learn more about oral appliance therapy and dental sleep medicine on the AADSM website at www.aadsm.org.
